Hi.

I've incorporated Catherine's edits in the attached version. If you haven't commented on yesterday's desk statement, please review this one instead.

Please let me know when we hear something back from Region 1 or MDAR on this.

Thanks,

Internal, draft

Thanks, Dian! My suggestions in the attached.

Best,
Catherine

Subject: FW: Desk statement needed for PFAS detection in pesticide used for recent mosquito aerial spraying in Mass

Importance: High

Hi All,

Could you please take a look at the draft desk statement, attached and below (in case you're reading it on your iPhone), that was requested by Region 1?

Thanks. I appreciate your input.

Desk Statement on Possible PFAS in Mosquito Adulticide Sprayed in Southeastern Massachusetts

On Aug 10, 2020, an aerial mosquito application was made in Plymouth County and parts of Bristol County in Massachusetts using Anvil 10-10 ULV (EPA Reg. No. 1021-1688-8329), which contains the active ingredients sumithrin and piperonyl butoxide.
